

LCRH Price List

Initial Assessment

- All individuals or couples need initial investigations to help determine the cause of any potential issues. This helps to plan treatment.
- All patients must complete an online Health Questionnaire prior to their first appointment. After this initial history other tests may be recommended or required to complete an assessment.

Services	Potential Cost
Initial consultation and transvaginal ultrasound scan	£290
Initial consultation (Virtual – Zoom/Skype) + subsequent scan	£170 / £290
Anti-Mullerian hormone (AMH) blood test*	£95
Semen analysis* (if applicable)	£185
Telephone follow up (15 min) with member of clinical team	Included with above
Potential cost	£570

* Only if not performed already elsewhere.

Pre-Treatment Investigations

- The pre-treatment investigations are required before a first cycle of treatment but don't have to be repeated before any additional cycles. The clinical team will talk to you if the tests need to be done again.
- All tests apart from required virology screening may be performed by the GP.
- These are required before a first cycle and **do not** need repeating before each cycle but at specific intervals as guided by the clinical team.

Services	IVF	Egg Freezing	IUI	FET
Virology (HIV, Hepatitis B, Hepatitis C, Chlamydia)	£150	£150	£150	N/A
Male Virology (if applicable)	£150	N/A	£150	N/A
Full Blood Count (FBC) *	£45	£45	£45	£45
Vitamin D (Vit D) *	£67	£67	£67	£67
Thyroid stimulating hormone (TSH) *	£55	£55	£55	£55
Rubella Proof (IgG) *	£55	£55	£55	£55
Haemoglobin Electrophoresis (HBEL) *	£100	TBA	£100	N/A
Potential total cost	£622	£372	£622	£222

*Supplementary female tests (if not done by GP)

Treatment Costs

Services	IVF	Egg Freezing	IUI	FET
Treatment cycle	£3,990	£3,790	£1,150	£2,050
Medication (average value)	£1,600	£1,200	£220	£250
Monitoring bloods (average value)	£370	£370	N/A	N/A
Potential total cost	£5,960	£5,360	£1,370	£2,300

Common Additional Services	Potential Cost
Blastocyst culture	£625
ICSI fertilization	£1,390
ICSI with IMSI fertilization	£1,855
PGT-A genetic embryo testing	£1,000 for 1 st embryo tested, then £500 per each additional embryo tested
Freezing of supernumerary embryos	£940

Investigations

Consultations	Cost
Initial consultation and transvaginal ultrasound scan	£290
Initial consultation (Virtual – Zoom/Skype)	£170
Follow-up consultation (up to 30 minutes)	£170
Telephone follow-up consultation (up to 30 minutes)	£170
Anaesthetic Review	£150
Initial Counselling session	No Charge
Nurse consultation prior to starting treatment	No Charge
Packages	Cost
Fertility MOT (Female) (Includes AMH, ultrasound scan, consultation, lifestyle advice and report)	£355
Fertility MOT (Male) (Includes semen analysis, consultation, lifestyle advice and report)	£355
Scans	Cost
Transvaginal Ultrasound scan	£200
Early Pregnancy scan	£200
HYCOSY – test of tubal patency / Saline Hysterosonogram	£500
Harmony test including scan	£425
Ovulation Induction / Cycle Monitoring	Cost
Monitoring Cycle Package • Baseline scan • Midcycle scan • Midcycle bloods (E2, P4, LH) • Luteal blood (P4)	£550
Estimated Medication (Ovitrelle, Letrozole and Cyclogest)	£110
Additional scan in monitoring cycle	£150
Male Investigations	Cost
Semen Analysis Comprehensive	£185
Semen Culture	£100
Sperm DNA Fragmentation Test	£450
Chromosome Y deletions	£300
Sperm Zymot	£200

Blood Tests – Hormonal Bloods	Cost
Anti-Mullerian hormone (AMH)	£95
Follicle stimulating hormone (FSH)	£60
Luteinizing hormone (LH)	£60
Estradiol (E2)	£60
Progesterone (P4)	£60
Prolactin	£60
Quantitative beta hCG	£75
Thyroid profile (TSH, FT4, FT3)	£140
Thyroid peroxidase and Thyroglobulin antibodies	£75
Female baseline profile day 1-4 (E2, FSH, LH and Prolactin)	£155
Male profile (LH, FSH, Testosterone, Prolactin and TSH)	£163
Monitoring profile in-cycle (E2, LH, progesterone)	£158
Typical Blood Tests in Treatment cycle: E2 x 5, LH and Progesterone	£369
Infection	Cost
Virology (HIV, Hepatitis B HBsAg, Hepatitis B Anti-HBc, Hepatitis C, Chlamydia)	£150
Rubella (IgG)	£55
Chlamydia (urine sample)	£95
HTLV I / II	£129
Cytomegalovirus (CMV, IgG, IgM)	£142
Syphilis screen	£45
Miscellaneous	Cost
Antiphospholipid screen (phospholipid antibodies, lupus abs, cardio abs)	£310
MTHFR mutation	£299
Full thrombophilia screen	£650
Blood group	£61
Thalassemia screen	£87
Sickle cell screen	£65
Liver function	£65
MSU	£52

Genetic Tests	Cost
Chromosomal Karyotype	£499
Fragile X Syndrome	£465
Cystic Fibrosis Carrier Screen	£355
Tay Sachs Carrier Screen	£499
Cytogenetics of Retained Products following Miscarriage	£650
Carrier Screening Test <ul style="list-style-type: none">• Single Gene (CGT-Sync)• Additional screen for genes of interest from Second donor• Repeat testing if needed	£950 £300 £350
Carrier Screening Test – Carrier Panel Individual (CGT – Plus, CGT- Exome)	£950/£1,650
Carrier Screening Test – Carrier Panel Couple (CGT – Plus, CGT - Exome)	£1,350/£1,650
GeneSeeker - Juno genetics DNA test Individual	£1,100
Endometrial Tests	Cost
EndomeTrio, Complete View of Endometrial Health – (ERA, EMMA & ALICE) including scans and bloods	£1,595
Endometrial Microbiome Metagenomic Analysis and Analysis of Infectious Chronic Endometritis (EMMA & ALICE) including scans and bloods	£895
Analysis of Infectious Chronic Endometritis (ALICE) including scans and bloods	£545
Ziwig Endotest®	£850

IVF / ICSI Cycles

IVF Treatment Cycle Fee	£3,990
Pre-treatment Nurse Consultation	Part of Treatment Fee
Counselling as required	Part of Treatment Fee
HFEA fee	Part of Treatment Fee
Cycle monitoring Scans	Part of Treatment Fee
Cycle management	Part of Treatment Fee
Admission & Theatre charges	Part of Treatment Fee
Anesthetic & Medical Charges	Part of Treatment Fee
Sperm collection and preparation	Part of Treatment Fee
Egg collection and preparation*	Part of Treatment Fee
IVF Fertilisation	Part of Treatment Fee
Embryo Transfer / Embryo freeze if no transfer	Part of Treatment Fee
Follow up following a failed cycle*	Part of Treatment Fee
Additional Costs in all cycles	
Medication	See note below*
Monitoring Bloods - E2 x 5, LH and Progesterone	£369
Additional Costs if applicable	
Blastocyst Culture*	£625
ICSI	£1,390
IMSI	£1,855
Embryo Freezing (included first year of storage) *	£940

***Notes:**

- Medication cost will depend on duration and dose of medication required that can vary between individuals and between cycles. See individual drug prices below and table of total IVF medication costs below based on the average of 11 days of stimulation.
- Blastocyst Culture of Embryos - We aim to culture all embryos to day 5. This is charged in addition to the IVF cycle cost but will be refunded should culture to day 5 not be achieved.
- ICSI will be advised by based on sperm quality and past cycle history and is not a routine part of all cycles.
- IMSI may be advised in select cases of recurrent cycle failure and based on specific selection criteria.
- At egg collection, if there are no eggs collected, we regret that no refund can be issued. Should treatment be abandoned prior to the egg collection procedure, you will be eligible for a partial refund.
- Cycles which do not result in a clinical pregnancy are entitled to a free follow up, booked within 6 weeks of the cycle outcome.
- Frozen embryo Transfer (FET) cycle fee will apply when embryos are thawed.

Frozen Embryo Transfer (FET) Cycle

Frozen Embryo Transfer (FET) Fee	£2,050
Counselling as required	Part of Treatment Fee
HFEA fee	Part of Treatment Fee
Cycle monitoring Scans	Part of Treatment Fee
Cycle management	Part of Treatment Fee
Embryo Thaw	Part of Treatment Fee
Embryo survival / re-expansion assessment	Part of Treatment Fee
Embryo Transfer	Part of Treatment Fee
Follow up following a failed cycle	Part of Treatment Fee
Additional Costs in all cycles	
Medication*	£75 - £650

- Medication cost will depend on duration and dose of medication required that can vary between individuals and between cycles.

Intra-Uterine Insemination Cycles

IUI Cycle Fee	£1,150
Counselling as required	Part of Treatment Fee
HFEA fee	Part of Treatment Fee
Cycle monitoring Scans	Part of Treatment Fee
Cycle management	Part of Treatment Fee
Sperm Preparation	Part of Treatment Fee
Insemination Procedure	Part of Treatment Fee
Additional Costs in all cycles	
Medication*	£75 - £500

* Medication costs will depend on the protocol selected and the duration and dose of medication required that can vary between individuals and between cycles.

Egg Freezing Cycles

Egg Freezing Cycle Fee	£3,790
3 cycle Egg Freezing Package Fee*	£9,450
Pre-treatment Nurse Consultation	Part of Treatment Fee
Counselling as required	Part of Treatment Fee
HFEA fee	Part of Treatment Fee
Cycle monitoring Scans	Part of Treatment Fee
Cycle management	Part of Treatment Fee
Admission & Theatre charges	Part of Treatment Fee
Anesthetic & Medical Charges	Part of Treatment Fee
Egg collection	Part of Treatment Fee
Egg preparation	Part of Treatment Fee
Egg Vitrification	Part of Treatment Fee
One year annual storage fee	Part of Treatment Fee
Follow up consultation	Part of Treatment Fee
Additional Costs in all cycles	
Medication	See note below*
Monitoring Bloods - E2 x 5, LH and Progesterone	£369

***Notes:**

- If you opt for our 3-cycle package it is possible to opt out at any point (for example if a suitable egg number is achieved earlier) and we will recharge the cycles undertaken at the standard price list fees that applied at the time of treatment and refund the remaining difference. If a cycle is abandoned prior to egg collection, this will be disregarded from the 3-cycle package and charged at the standard abandoned cycle rate (depending on the number of scans performed). The packages are fulfilled when all 3 egg collections have been performed. All 3 cycles are to be completed within 1 year of purchase.
- Medication cost will depend on duration and dose of medication required that can vary between individuals and between cycles. See individual drug prices below and table of total IVF medication costs below based on the average of 11 days of stimulation.
- At egg collection, if there are no eggs collected, we regret that no refund can be issued. Should treatment be abandoned prior to the egg collection procedure, you will be eligible for a partial refund.
- The Egg thaw transfer cycle will apply when applicable.

Egg Thaw and Embryo Transfer

Egg Thaw Cycle Fee	£3,440
Pre-treatment Nurse Consultation	Part of Treatment Fee
Counselling as required	Part of Treatment Fee
HFEA fee	Part of Treatment Fee
Cycle monitoring Scans	Part of Treatment Fee
Cycle management	Part of Treatment Fee
Egg Thaw	Part of Treatment Fee
ICSI Fertilisation	Part of Treatment Fee
Embryo Transfer / Embryo freeze if no transfer	Part of Treatment Fee
Follow up following a failed cycle*	Part of Treatment Fee
Additional Costs in all cycles	
Medication*	£75 - £650
Additional Costs if applicable	
Blastocyst Culture*	£625
IMSI*	£465
Embryo Freezing (included first year of storage)	£940

***Notes:**

- Medication costs will depend on the protocol selected and the duration and dose of medication required that can vary between individuals and between cycles.
- Cycles which do not result in a clinical pregnancy are entitled to a free follow up, booked within 6 weeks of the cycle outcome.
- Culture to Day 5 will be routinely recommended if there are a sufficient number of embryos on Day 3 so as further culture will enhance embryo selection for transfer.
- IMSI may be advised in select cases of recurrent cycle failure and based on specific selection criteria.

Treatment Packages

For other IVF treatment package options, we work with our partners at Access Fertility (accessfertility.com) who offer multi-cycle and refund packages to LCRH patients.

3 Cycle Embryo Freeze at Blastocyst Package	£12,430
Pre-treatment Nurse Consultation	Part of Treatment Fee
Counselling as required	Part of Treatment Fee
HFEA fee	Part of Treatment Fee
Cycle monitoring Scans for 3 cycles	Part of Treatment Fee
Cycle management for 3 cycles	Part of Treatment Fee
Admission & Theatre charges for 3 cycles	Part of Treatment Fee
Anaesthetic & Medical Charges for 3 cycles	Part of Treatment Fee
Sperm collection and preparation for 3 cycles	Part of Treatment Fee
Egg collection and preparation for 3 cycles*	Part of Treatment Fee
IVF Fertilisation for 3 cycles	Part of Treatment Fee
Blastocyst Culture for 3 cycles*	Part of Treatment Fee
Embryo freeze and first year of storage for 3 cycles	Part of Treatment Fee
Follow ups for 3 cycles	Part of Treatment Fee
Additional Costs in all cycles	
Medication	See note below*
Monitoring Bloods - E2 x 5, LH and Progesterone	£369
Additional Costs if applicable	
ICSI	£1,390
IMSI	£1,855

*Notes:

- If a cycle is abandoned prior to egg collection, this will be disregarded from the 3-cycle package and charged at the standard abandoned cycle rate (depending on the number of scans performed). The packages are considered to be fulfilled when all 3 egg collections have been performed. All 3 cycles are to be completed within 1 year of purchase.
- Medication cost will depend on duration and dose of medication required that can vary between individuals and between cycles. See individual drug prices below and table of total IVF medication costs below based on the average of 11 days of stimulation.
- Blastocyst Culture of Embryos - We aim to culture all embryos to day 5. This is charged in addition to the IVF cycle cost but will be refunded should culture to day 5 not be achieved.

- At egg collection, if there are no eggs collected, we regret that no refund can be issued. Should treatment be abandoned prior to the egg collection procedure, you will be eligible for a partial refund.
- Frozen Embryo Transfer (FET) cycle fee will apply when embryos are thawed.

Lab Procedures

Cryopreservation / Thawing	Cost
Embryo Freezing (includes up to 12 months of storage)	£940
Sperm Freezing (includes up to 12 months of storage)	£425
Annual Storage fee (for embryo's, eggs or donor / partner sperm)	£350
Additional Freeze / Thaw Charge*	£550
Annual storage fee (payable per annum for storage, non-refundable)	£350
Import / Export of frozen gametes / embryos**(UK)	£300
Import / Export of frozen gametes / embryos**(International)	£400

*This charge applies to a fresh IVF/ICSI cycle that includes a further thaw of eggs or frozen embryos, a fresh IVF/ICSI cycle that includes a further freeze of eggs and a thaw/refreeze of frozen embryos/eggs.

**This charge is administrative and does not include courier charges

Genetics	Cost
PGT set-up fee (applies to PGT-A and PGT-SR)	£500
PGT-A (per embryo)	£500
PGT-SR Robertsonian translocation (per embryo)	£500
PGT-SR Reciprocal translocation (per embryo)	£500
PGT-M HFEA license application†	£495
PGT-M prep work up	£1,495
PGT-M (one to nine embryos)	£4,000
Each additional embryo	£500

†This fee is refundable if a subsequent PGT-M treatment cycle follows

Supplementary Procedures	Cost
Mock Embryo Transfer	£300
Embryo transfer in theatre (additional cost)	£1,000
Cervical smear and HPV testing	£180
MicroVE - Vaginal Microbiome Testing	£300
Embryoscope	£750
Egg Donation Overseas - Patient Administration Fee	£300
Egg Donation Overseas - UK Monitoring Cycle - Baseline Scan - Midcycle Scan - Midcycle Bloods (E2, P4, LH)	£550

Abandoned Cycles	Cost
Abandoned cycle, after 1 scan*	£400
Abandoned cycle after 2 scans*	£600
Abandoned cycle after 3 scans*	£800
Abandoned cycle after 4 or more scans*	£1,000

*Should treatment be abandoned prior to the egg collection procedure, you will be eligible for a partial refund but you will be charged an abandoned cycle fee.
