

LCRH Price List

(effective 1st May 2025)

Prior to making any decision regarding treatment we advise that you have confirmed all costs with LCRH and request further clarification if anything is unclear.

LCRH reserves the right to amend prices at any time.

Initial Assessment

- All individuals or couples need initial investigations to help determine the cause of any potential issues. This helps to plan treatment.
- All patients must complete an online Health Questionnaire prior to their first appointment. After this initial history other tests may be recommended or required to complete an assessment.

Services	Potential Cost
Initial Consultation (Couples) - In person or virtual consultation - Transvaginal ultrasound scan - Complimentary follow up if booked within 6 weeks	£450
Initial Consultation (Single Person) - In person or virtual consultation - Transvaginal ultrasound scan - Complimentary follow up if booked within 6 weeks	£350
Counselling session (initial session within cycle is complimentary)	£120
Anti-Mullerian hormone (AMH) blood test*	£115
Semen analysis* (if applicable, including discussion of results)	£185
Follow up (30 min) with member of clinical team if not booked within 6 weeks	£200

* Only if not performed already elsewhere.

Pre-Treatment Investigations

- The pre-treatment investigations are required before a first cycle of treatment but don't have to be repeated before any additional cycles. The clinical team will talk to you if the tests need to be done again.
- All tests apart from required virology screening may be performed by the GP.

Services	Cost
Virology (HIV, Hepatitis B HBsAg, Hep B Anti-HBc, Hep C, HTLV) (per partner)	£200
Chlamydia / Gonorrhoea (per partner)	£95
Full Blood Count (FBC) *	£50
Vitamin D (Vit D) *	£70
Thyroid stimulating hormone (TSH) *	£55
Rubella Proof (IgG) *	£70
Haemoglobin Electrophoresis (HBEL) * (Sickle cell and Thalassemia Screen)	£100
Pre-Conception Test Package (FBC, VIT D, TSH, RUBE)	£150

*Supplementary female tests (if not done by GP)

Investigations

Consultations	Cost
Initial Consultation (Couples) <ul style="list-style-type: none">- In person or virtual consultation- Transvaginal ultrasound scan- Complimentary follow up if booked within 6 weeks	£450
Follow up (30 min) with member of clinical team if not booked within 6 weeks	£200
Scans	Cost
Transvaginal ultrasound scan	£200
Early pregnancy scan	£225
HYCOSY – test of tubal patency	£450
Saline Hysterosonogram	£400
Harmony test including viability scan	£425
Ovulation Induction / Cycle Monitoring	Cost
Monitoring Cycle Package (does not include medications) <ul style="list-style-type: none">• Clinical planning and support• Baseline scan• Midcycle scans as required• Midcycle bloods as required (E2, P4, LH)• Luteal blood (P4)	£800
Estimated Medications (Ovitrelle, Letrozole and Cyclogest)	£60
Male Investigations	Cost
Semen Analysis (including discussion of results)	£185
Semen Culture (including discussion of results)	£125
Sperm Comet® DNA Fragmentation Test (including discussion of results)	£500
Sperm Comet® Extend DNA Fragmentation Test (including discussion of results)	£600
Male Microbiome (including discussion of results)	£500

Blood Tests – Hormonal Bloods	Cost
Anti-Mullerian hormone (AMH)	£115
Follicle stimulating hormone (FSH)	£50
Luteinizing hormone (LH)	£50
Estradiol (E2)	£50
Progesterone (P4)	£50
Prolactin (PROL)	£50
Quantitative beta HCG (1 x included with embryo transfer)	£75
Thyroid Profile Complete (T4, FT3, FT4, TSH, Thyroid Peroxidase Abs, Thyroglobulin Abs)	£175
Baseline Hormone Profile package (LH, FSH, E2)	£125
Monitoring profile in-cycle package (E2, LH, P4)	£125
Infection	Cost
Virology (HIV, Hepatitis B HBsAg, Hep B Anti-HBc, Hep C, HTLV)	£200
Rubella (IgG)	£70
Chlamydia / Gonorrhoea (urine sample)	£95
HTLV 1& 2 Abs. (Human T Lymphotropic Virus Type I-II)	£90
Cytomegalovirus (CMV, IgG, IgM)	£100
Syphilis screen (venous, IgG, IgM)	£65
Miscellaneous	Cost
Cervical smear and HPV testing	£200
Female Microbiome Testing (Fertilysis - including discussion of results)	£400
Male Microbiome Testing (Fertilysis - including discussion of results)	£500
Haemoglobin Electrophoresis (Sickle cell and Thalassemia Screen)	£100
Liver function	£55
Urine Chemistry, Microscopy and Culture	£70
Blood group	£65

Genetic Tests	Cost
PGT-Aneuploidy (PGT-A) Genetic testing	
PGT set-up fee / Embryo biopsy (applies to PGT-A and PGT-SR)	£500
Embryo Thaw, biopsy and refreeze (applies to frozen embryos)	£2,000
PGT-A (per embryo)	£500
PGT-SR Robertsonian translocation (per embryo)	£500
PGT-SR Reciprocal translocation (per embryo)	£500
PGT-M HFEA license application	£495
PGT-M prep work up / biopsy	£3,000
PGT-M (per embryo)	£550
Genetic testing	Cost
Thrombotic risk profile	£760
MTHFR – common C677T + A1298C mutations	£250
Chromosome Analysis (KARY)	£450
Cystic Fibrosis Carrier Screen (CFS)	£355
Y-Chromosome Microdeletions (YDEL)	£275
Male Genetic Reproductive Profile (KARY + CFS + YDEL)	£900
Carrier Screen (Pan Ethnic)	£600
Carrier Screen (Pan Ethnic) – Partnered Report	£750
GeneSeeker - Juno genetics DNA test Individual	£1,100
Endometrial Tests	Cost
EndomeTrio, Complete View of Endometrial Health – (ERA, EMMA & ALICE) including scans and bloods	£1,795
ERA test (Endometrial Receptivity Array Test) including scans and bloods	£1,395
Repeat ERA test (Endometrial Receptivity Array Test) including scans and bloods	£1,095
Endometrial Microbiome Metagenomic Analysis and Analysis of Infectious Chronic Endometritis (EMMA & ALICE) including scans and bloods	£1,095
Repeat EMMA & ALICE (if required)	£300

Please note this is not a complete or comprehensive list of all the tests available through LCRH.

Treatment Cycles

LCRH will provide tailor made quotes for proposed treatment plans after the initial consultation and scan. The following are offered as a guide to some typical treatment cycle costs and is not a complete or comprehensive list of all the services available. LCRH also works to provide egg donation, shared-motherhood and surrogacy options.

IVF Fresh Cycle Fee	£4,225
3rd IVF Fresh Cycle Fee (applied automatically) *	£2,725
First Counselling Session	Part of Treatment Fee
Cycle management & support during the IVF treatment cycle	Part of Treatment Fee
Cycle monitoring scans	Part of Treatment Fee
Egg collection, anesthetic charges, and IVF procedure*	Part of Treatment Fee
Fresh embryo transfer	Part of Treatment Fee
Follow up consultation for cycles not resulting in a clinical pregnancy	Part of Treatment Fee
Pregnancy Blood Test (BHCG)	Part of Treatment Fee
1 st Pregnancy Scan	Part of Treatment Fee
Additional Costs in all cycles	
Pre Egg Collection Medication*	£600 - £2650
Mock Embryo Transfer	£300
Cycle monitoring blood tests	£340
Blastocyst Culture*	£600
Embryoscope*	£550
HFEA fee (payable on every cycle where an embryo transfer takes place)	£100
Additional Costs if applicable	
ICSI procedure*	£1,400
IMSI procedure*	£1,900
ZYMOT *	£300
Embryo Glue	£345
Freezing of supernumerary embryos (excludes cryostorage fee)	£550
Cryostorage Options	
Storage of frozen eggs/sperm/embryos monthly direct debit	£30 / month
<ul style="list-style-type: none"> If all the eggs, sperm or embryos are thawed the ongoing storage cost will discontinue 	

IVF Freeze All Cycle Fee	£4,475
3rd IVF Cycle Fee (applied automatically) *	£2,975
First Counselling Session	Part of Treatment Fee
Cycle management & support during the IVF treatment cycle	Part of Treatment Fee
Cycle monitoring scans	Part of Treatment Fee
Egg collection, anesthetic charges, and IVF procedure*	Part of Treatment Fee
Embryo vitrification	Part of Treatment Fee
Follow up consultation	Part of Treatment Fee
Additional Costs in all cycles	
Pre Egg Collection Medication*	£600 - £2650
Mock Embryo Transfer	£300
Cycle monitoring blood tests	£340
Blastocyst Culture*	£600
Embryoscope*	£550
Additional Costs if applicable	
ICSI procedure*	£1,400
IMSI procedure*	£1,900
ZYMOT *	£300
Embryo Glue	£345
Cryostorage Options	
Storage of frozen eggs/sperm/embryos monthly direct debit	£30 / month
• If all the eggs, sperm or embryos are thawed the ongoing storage cost will discontinue	

***Notes:**

- Instead of offering a three-cycle package requiring a large upfront cost and various terms and conditions, LCRH will automatically reduce the cycle fee for every 3rd cycle.
- At egg collection, if there are no eggs collected, we regret that no refund can be issued. Should treatment be abandoned prior to the egg collection procedure, you will be eligible for a partial refund.
- Medication cost will depend on duration and dose of medication required. This can vary between individuals and between cycles.
- Blastocyst Culture of Embryos - We aim to culture all embryos to day 5. This is charged in addition to the IVF cycle cost.
- Monitoring embryo development in a non-interrupted time-lapse imaging incubator (Embryoscope) is preferred but will not be used if specifically requested.
- ICSI will be advised by based on sperm quality and past cycle history and is not a routine part of all cycles.
- IMSI may be advised in select cases of recurrent cycle failure and based on specific selection criteria.
- Zymot will be advised by based on sperm quality and past cycle history and is not a routine part of all cycles.

Egg Freezing Cycle Fee	£3,300
3rd Egg Freezing Cycle Fee (applied automatically) *	£2,000
Total cost of 3 Egg Freezing Cycles	£8,600
First Counselling Session	Part of Treatment Fee
Cycle management & support during the Egg Freezing treatment cycle	Part of Treatment Fee
Cycle monitoring scans	Part of Treatment Fee
Egg collection and anesthetic charges *	Part of Treatment Fee
Egg freezing (excludes cryostorage fee)	Part of Treatment Fee
Follow up consultation	Part of Treatment Fee
Additional Costs in all cycles	
Cycle monitoring blood tests	£340
Pre Egg Collection Medication*	£600 - £2250
Cryostorage Options	
Storage of frozen eggs monthly direct debit	£30 / month
• If all the eggs are thawed the ongoing storage cost will discontinue	

***Notes:**

- Instead of offering a three-cycle package requiring a large upfront cost and various terms and conditions, LCRH will automatically reduce the cycle fee for every 3rd cycle.
- Medication cost will depend on duration and dose of medication required that can vary between individuals and between cycles.
- At egg collection, if there are no eggs collected, we regret that no refund can be issued. Should treatment be abandoned prior to the egg collection procedure, you will be eligible for a partial refund.
- An Egg Thaw, ICSI fertilisation and Transfer cycle (currently £3,650 but subject to change in the future) will be needed to progress frozen eggs to potential pregnancy. This may also include Medication (£0 - £650), Blastocyst Culture (£600), IMSI top up (500), Embryoscope (£550), HFEA fee (£100) and Freezing of any supernumerary embryos (£550).

IUI Cycle Fee	£1,250
Cycle management & support during the IUI treatment cycle	Part of Treatment Fee
Cycle monitoring scans	Part of Treatment Fee
Sperm Preparation (partner or donor) and insemination	Part of Treatment Fee
Additional Costs if applicable	
Cycle monitoring blood tests	£250
HFEA fee (payable in cycles in which donor sperm is used)	£40
Pre Pregnancy Test Medication*	£75 - £500

***Notes:**

- Medication cost will depend on duration and dose of medication required. This can vary between individuals and between cycles. If pregnant medication will continue until 12 weeks

Frozen Embryo Transfer (FET) Cycle Fee	£2,350
Clinical planning & support during the FET treatment cycle	Part of Treatment Fee
Cycle monitoring scans	Part of Treatment Fee
Cycle monitoring blood tests	Part of Treatment Fee
Embryo Thaw and survival / re-expansion assessment	Part of Treatment Fee
Embryo Transfer	Part of Treatment Fee
Follow up consultation for cycles not resulting in a clinical pregnancy	Part of Treatment Fee
Pregnancy Blood Test (BHCG)	Part of Treatment Fee
1 st Pregnancy Scan	Part of Treatment Fee
Additional Costs in all cycles	
HFEA fee (payable on every cycle where an embryo transfer takes place)	£100
Pre Pregnancy Test Medication*	£200 - £550

***Notes:**

- Medication cost will depend on duration and dose of medication required. This can vary between individuals and between cycles. If pregnant medication will continue until 12 weeks.

Egg Thaw, ICSI and Fresh Embryo Transfer Cycle Fee	£4,150
Clinical planning & support during the egg thaw treatment cycle	Part of Treatment Fee
Cycle monitoring scans	Part of Treatment Fee
Cycle monitoring blood tests	Part of Treatment Fee
Egg Thaw and ICSI fertilisation	Part of Treatment Fee
Fresh embryo transfer	Part of Treatment Fee
Follow up consultation for cycles not resulting in a clinical pregnancy*	Part of Treatment Fee
Pregnancy Blood Test (BHCG)	Part of Treatment Fee
1 st Pregnancy Scan	Part of Treatment Fee
Additional Costs in all cycles	
Mock Embryo Transfer	£300
Pre Pregnancy Test Medication*	£200 - £550
Blastocyst Culture*	£600
Embryoscope*	£550
HFEA fee (payable on every cycle where an embryo transfer takes place)	£100
Additional Costs if applicable	
IMSI (top up) *	£500
ZYMOT *	£300
Embryo Glue	£345
Freezing of supernumerary embryos (excludes cryostorage fee)	£550
Cryostorage Options	
Storage of frozen eggs/sperm/embryos monthly direct debit	£30 / month
<ul style="list-style-type: none">If all the eggs, sperm or embryos are thawed the ongoing storage cost will discontinue

Additional Lab Procedures	Cost
Embryo Freezing (excludes cryostorage fee)	£550
Sperm Freezing (excludes cryostorage fee)	£350
Additional Freeze / Thaw Charge*	£500
Storage of frozen eggs/sperm/embryos monthly direct debit <ul style="list-style-type: none">If all the eggs, sperm or embryos are thawed the ongoing storage cost will discontinue	£30 / month
Import / Export of frozen gametes / embryos**(UK)	£250
Import / Export of frozen gametes / embryos**(International)	£500

*This charge applies to a fresh IVF/ICSI cycle that includes a further thaw of eggs or frozen embryos, a fresh IVF/ICSI cycle that includes a further freeze of eggs and a thaw/refreeze of frozen embryos/eggs.

**This charge is administrative and does not include courier charges

Supplementary Procedures	Cost
Mock Embryo Transfer	£300
Embryo transfer in theatre (additional cost)	£1,000
Embryoscope	£550
Egg Donation Overseas - Patient Administration Fee	£300
Egg Donation Overseas - UK Monitoring Cycle (does not include medications) <ul style="list-style-type: none">Clinical planning and supportBaseline scanMidcycle scans as requiredMidcycle bloods as required (E2, P4, LH)Luteal blood (P4)	£800

Abandoned Cycles	Cost
Abandoned cycle, after 1 scan*	£400
Abandoned cycle after 2 scans*	£600
Abandoned cycle after 3 scans*	£800
Abandoned cycle after 4 or more scans*	£1,000

*Should treatment be abandoned prior to the egg collection procedure, you will be eligible for a partial refund but you will be charged an abandoned cycle fee.

Indicative Prices for some common Medications (for delivery, collection direct from the clinic may vary)

Buserelin 5.5mg/5.5ml for injection + Trigger kit	VIAL	£30.00
Clexane 40mg/0.4ml solution for injection (1)	PFS	£3.50
Clomid 50mg tablets (Sanofi) (30)	TABLET	£0.40
Cyclogest 400mg pessaries (Actavis) (15)	PESSARY	£0.96
Evorel 100 patches (8)	PATCH	£1.94
Fyremadel 0.25mg/0.5ml pre filled syringe (1)	PFS	£19.35
Human Chorionic Gonadotropin 5000iu (1)	EACH	£30.00
Letrozole 2.5mg tablets (28)	TABLET	£0.20
Lubion 25mg/1.119ml solution for injection (7)	VIAL	£8.00
Meriofert 75iu powder and solvent for Injection (1)	VIAL	£27.90
Meriofert 150iu powder and solvent for injection (1)	VIAL	£55.80
Meriofert 900iu Powder and solvent for injection (1)	CARTRIDGE	£334.80
Norditropin FlexPro 10mg/1.5ml solution pre-filled pen (1)	CARTRIDGE	£212.70
Norethisterone 5mg tablets (30)	TABLET	£0.35
Ovaleap 300iu/0.5ml Cartridge (follitropin alfa) (1)	CARTRIDGE	£104.00
Ovaleap 450iu/0.75ml Cartridge (follitropin alfa) (1)	CARTRIDGE	£156.00
Ovaleap 900iu/1.5ml Cartridge (follitropin alfa) (1)	CARTRIDGE	£312.00
Ovamex 0.25mg/0.5ml pre filled syringe (1)	PFS	£19.35
